

Calabrese.90@osu.edu

(216) 217-1259

Cleveland, OH 44143

Skills

- Analytical: Problem-Solving, Data Interpretation, Quantitative Reasoning
- Software & Tools: Python, JavaScript, SolidWorks (CAD), Onshape (CAD), Microsoft Excel
- Engineering Competencies: Mechanical Systems Design, Process Optimization, Project Management, Team Collaboration
- Leadership: Coaching & Mentoring
- Relevant Coursework: Physics, Linear Algebra, Differential Equations, Statistics, CAD

Education

Expected in 05/2029

B.S. Mechanical Engineering

The Ohio State University

Columbus, Ohio

- 3.86 GPA
- Spring 2026 – Dean's List
- Formula Buckeye Member 2026
- ASME Member 2026

08/2025

B.S. Mechanical Engineering

University of Cincinnati

Cincinnati, Ohio

- 3.92 GPA
- Fall 2025 – Dean's List
- Cincinnati Century Scholar Scholarship
- Students in STEM Scholarship
- Clair Hulley Scholarship

Devan Calabrese <https://www.linkedin.com/in/devancalabrese/>

My Portfolio: <https://engineering-portfolio-nu.vercel.app>

Experience

Rookie Sports Club Coach – Mayfield, OH

08/2026 - Current

- Led structured training sessions for groups of 20–30 youth athletes, emphasizing fundamental skills, coordination, and teamwork
- Adapted coaching methods across age groups to maintain engagement and support skill development at varying levels

Jimmy John's Crew Member – Mayfield, OH

05/2023 - 08/2026

- Operated in a high-throughput environment serving 200+ customers per shift, optimizing task sequencing and time management under strict performance constraints
- Collaborated with 1-5 team members to maintain quality, safety, and efficiency standards during peak operational periods

Recreational/Travel Soccer Coach/Referee – Mayfield, OH 01/2023 - 03/2023

- Coached and mentored youth players, teaching technical skills and teamwork
- Demonstrated leadership and authority in coordinating the competitions of players, parents, and coaches

Projects

- V8 Engine Internal Combustion Design — Personal Project | 01/2026 – 03/2026
 - Designed and assembled a complex mechanical system in both SolidWorks and Onshape using parametric modeling; validated component motion and refined geometry to eliminate interference
- Water Pump Design & Fabrication — Course Project | 09/2025
 - Designed a CAD-based system in Onshape to transport water vertically and horizontally using an ox-powered bucket-and-gear conveyor; modeled gears, shafts, buckets, and support structures

Activities

- Project Smile — Volunteer, Belize City | 02/2020, 02/2023
 - Assisted with dental work and hands-on repairs of chairs, stairs, desks, tables, and doors to improve local facilities
- Men's Volleyball Club — Co-Founder | 08/2024 – 06/2025
 - Co-founded the team and coordinated member recruitment, involvement, and team culture
